

MINISTERIAL ORDER ESTABLISHING ASSESSMENT DISTRICT BOUNDARIES  
PURSUANT TO SECTION 20(1) OF THE YUKON ENVIRONMENTAL AND SOCIO-  
ECONOMIC ASSESSMENT ACT

PURPOSE

1. The purpose of this order is the establishment, by the Minister of Indian Affairs and Northern Development, of the six assessment districts in Yukon pursuant to Subsection 20(1) of the *Yukon Environmental and Socio-economic Assessment Act*.

INTERPRETATION

2. In this Order,

“Settlement Land” refers to those parcels of land whose boundaries are described in Appendix A of the final land claim agreement or defined by survey pursuant to Chapter 15 of the final land claim agreement of the following first nations:

- a) Champagne and Aishihik First Nation (CAFN)
- b) Little Salmon/Carmacks First Nation (LSC)
- c) First Nation of Nacho Nyak Dun (NND)
- d) Selkirk First Nation (SFN)
- e) Ta’an Kwach’an Council (TKC)
- f) Teslin Tlingit Council (TTC)

“Proposed Settlement Land” refers to those parcels of land shown on Territorial Resource Base Maps on file at the federal claims office, Department of Indian Affairs and Northern Development, at Whitehorse in the Yukon, copies of which have been deposited with the Head, Land Dispositions, at Whitehorse and with the Mining Recorders at Whitehorse, Watson Lake, Mayo and Dawson, in the Yukon, for the following first nations:

- a) Carcross/Tagish First Nation (CTFN)
- b) Kwanlin Dun First Nation (KDFN)
- c) Liard First Nation (LFN)
- d) Ross River Dena Council (RRDC)

ASSESSMENT DISTRICT BOUNDARIES

3. The descriptions of the six assessment district boundaries are as set out in the attached schedule. All geographic coordinates referred to in the schedule being North American Datum 1983, and all topographic features referred to in the schedule being according to 1:250,000 scale National Topographic Series Maps produced by Natural Resources Canada.

EFFECTIVE DATE

4. This order takes effect upon execution.

Dated this \_\_\_\_ day of \_\_\_\_\_, 2004.

---

The Honourable Andy Scott, PC, MP  
Minister of Indian Affairs and Northern Development

SCHEDULE  
(Section 3)

**ASSESSMENT DISTRICT BOUNDARY DESCRIPTIONS**

**1.0 South Central Yukon**

1.1 In Yukon, all that land contained within the area more particularly described as follows:

1.2 Commencing at a point on the Yukon - British Columbia boundary at its intersection with the east bank of Carlick Creek;

1.3 Thence northerly along the east bank of Carlick Creek to a point at its intersection with the south bank of the Rancheria River;

1.4 Thence northerly to a point on the centre line of the Rancheria River directly across from the intersection of the east bank of Carlick Creek with the south bank of the Rancheria River;

1.5 Thence westerly along the centre line of the Rancheria River, including Daughney Lake, to a point on the centre line of the Rancheria River, at approximate latitude 60° 15' 30" N and approximate longitude 130° 56' 30" W, a distance of 1,500 metres in a straight line southwest of the intersection of the south bank of the Rancheria River with the south shore of North Wind Lakes;

1.6 Thence northwesterly along the line of watershed separating the streams flowing into the Rancheria River upstream of said point from the streams flowing into the Rancheria River downstream of said point, to a point at its intersection with the line of watershed of the Meister River;

1.7 Thence northeasterly along the line of watershed separating the streams flowing into the Rancheria River from the streams flowing into the Meister River to a point at its intersection with the line of watershed of the unnamed tributary of the Meister River that flows into the Meister River at approximate latitude 60° 24' 30" N and approximate longitude 130° 57' 30" W;

1.8 Thence northeasterly along the line of watershed separating the streams flowing into said unnamed tributary of the Meister River from the streams flowing into the Meister River upstream of Almost Lake to a point at a height of land, of approximate elevation 1,550 metres, located at approximate latitude 60° 24' 00" N and approximate longitude 131° 00' 30" W;

1.9 Thence northerly in a straight line to the intersection of the south bank of the Meister River with the east shore of Almost Lake;

1.10 Thence northwesterly in a straight line to a point at a height of land, of approximate elevation 1,945 metres, located at approximate latitude 60° 28' 00" N and approximate longitude 131° 03' 30" W;

1.11 Thence northerly along the line of watershed separating the streams flowing into the Meister River downstream of Almost Lake from the streams flowing into the Meister River upstream of Almost Lake to a point at its intersection with the line of watershed of Irvine Creek;

1.12 Thence northeasterly along the line of watershed separating the streams flowing into the Meister River from the streams flowing into Irvine Creek to a point at its intersection with the line of watershed of Cabin Creek;

1.13 Thence northwesterly along the line of watershed separating the streams flowing into Irvine Creek from the streams flowing into Cabin Creek and Gravel Creek to a point at its intersection with the line of watershed of Shootamook Creek;

1.14 Thence northeasterly along the line of watershed separating the streams that flow into Gravel Creek from the streams that flow into Shootamook Creek to a point at a height of land, of approximate elevation 1,510 metres, at approximate latitude  $60^{\circ} 45' 30''$  N and approximate longitude  $130^{\circ} 58' 00''$  W;

1.15 Thence northwesterly along the line of watershed separating the streams flowing into Shootamook Creek from the streams flowing into Scurvy Creek downstream of Shootamook Creek to a point at the intersection of the south bank of Shootamook Creek with the south bank of Scurvy Creek;

1.16 Thence easterly along the line of watershed separating the streams flowing into Scurvy Creek downstream of Shootamook Creek from the streams flowing into Scurvy Creek upstream of Shootamook Creek to a point at its intersection with the line of watershed of Dome Creek;

1.17 Thence northerly along the line of watershed separating the streams flowing into Dome Creek from the streams flowing into Scurvy Creek to a point at its intersection with the line of watershed of the unnamed tributary that flows into the Liard River at approximate latitude  $60^{\circ} 59' 00''$  N and approximate longitude  $130^{\circ} 50' 00''$  W;

1.18 Thence northerly along the line of watershed separating the streams flowing into the Liard River downstream of the Ings River from the streams flowing into the Liard River upstream of the Ings River to a point at a height of land, of approximate elevation 1,550 metres, located at approximate latitude  $61^{\circ} 02' 30''$  N and approximate longitude  $131^{\circ} 02' 00''$  W;

1.19 Thence northerly in a straight line to a point at the intersection of the north bank of the Liard River with the western boundary of the parcel of Proposed Settlement Land identified as LFN R-112A;

1.20 Thence northwesterly along the western boundary of the parcel of Proposed Settlement Land identified as LFN R-112A to the northwest corner of said parcel of Proposed Settlement Land;

1.21 Thence westerly along the line of watershed separating the streams flowing into the unnamed tributary of Lonely Creek that flows into Lonely Creek at approximate latitude  $61^{\circ} 13'$

30" N and approximate longitude 131° 23' 00" W from the streams flowing into Lonely Creek downstream of said unnamed tributary to a point at a height of land, of approximate elevation 1,825 metres, located at approximate latitude 61° 14' 00" N and approximate longitude 131° 19' 00" W;

1.22 Thence northerly in a straight line to a point at a height of land, of approximate elevation 1,825 metres, located at approximate latitude 61° 18' 30" N and approximate longitude 131° 19' 00" W;

1.23 Thence northwesterly along the line of watershed separating the streams flowing into the Liard River from the streams flowing into the Hoole River to a point at its intersection with the line of watershed of the McNeil River;

1.24 Thence northwesterly along the line the of watershed separating the streams flowing into the Nisutlin River from the streams flowing into the Pelly River to a point at its intersection with the line of watershed of White Creek;

1.25 Thence westerly along the line of watershed separating the streams flowing into the Ketzia River from the streams flowing into White Creek to a point at its intersection with the line of watershed of the unnamed tributary of the McConnell River that flows into the McConnell River at approximate latitude 61° 32' 30" N and approximate longitude 132° 32' 00" W;

1.26 Thence westerly along the line of watershed separating the streams flowing into said unnamed tributary of the McConnell River from the streams flowing into the McConnell River downstream of said unnamed tributary to a point at a height of land, of approximate elevation 1,825 metres, at approximate latitude 61° 32' 00" N and approximate longitude 132° 28' 00" W;

1.27 Thence westerly in a straight line to a point at a height of land, of approximate elevation 1,825 metres, at approximate latitude 61° 32' 00" N and approximate longitude 132° 33' 00" W;

1.28 Thence northwesterly along the line of watershed separating the streams flowing into Seagull Creek from the streams flowing into the McConnell River to a point at a height of land of approximate elevation 1,855 metres, at approximate latitude 61° 34' 00" N and approximate longitude 132° 37' 00" W;

1.29 Thence westerly in a straight line to a point at a height of land, of approximate elevation 1,640 metres, at approximate latitude 61° 33' 00" N and approximate longitude 132° 41' 30" W;

1.30 Thence westerly along the line of watershed separating the streams flowing into the unnamed tributary of Seagull Creek that flows into Seagull Creek at approximate latitude 61° 38' 00" N and approximate longitude 132° 32' 40" W from the streams that flow into Seagull Creek upstream of said unnamed tributary to a point at its intersection with the line of watershed of Upper Sheep Creek;

1.31 Thence westerly along the line of watershed separating the steams flowing into Upper Sheep Creek and Rose Lake from the streams flowing into Seagull Creek, Groundhog Creek and

Lapie Lakes to a point at a height of land, of approximate elevation 1,975 metres, at approximate latitude 61° 36' 00" N and approximate longitude 133° 00' 00" W;

1.32 Thence westerly in a straight line to the southeast corner of the parcel of Proposed Settlement Land identified as RRDC R-72A;

1.33 Thence westerly along the southern boundary of the parcel of Proposed Settlement Land identified as RRDC R-72A to a point at the intersection of the western boundary of said parcel of Proposed Settlement Land with the line of watershed of Pony Creek;

1.34 Thence northwesterly along the line of watershed separating the streams flowing into Pony Creek from the streams flowing into the Lapie River to a point at its intersection with the line of watershed of the North Big Salmon River;

1.35 Thence westerly along the line of watershed separating the steams flowing into the North Big Salmon River from the streams flowing into Pony Creek and the Big Salmon River to a point at its intersection with the line of watershed of Northern Creek;

1.36 Thence westerly along the line of watershed separating the streams flowing into Northern Creek and Northern Lake from the streams flowing into the Big Salmon River to a point on the line of watershed of Teraktu Creek at a height of land, of approximate elevation 1,855 metres, at approximate latitude 61° 41' 00" N and approximate longitude 134° 00' 00" W;

1.37 Thence southerly along the line of watershed separating the streams flowing into Teraktu Creek from the streams flowing into the unnamed tributary of the Big Salmon River that flows into the Big Salmon River at approximate latitude 61° 32' 00" N and approximate longitude 133° 58' 00" W to a point at its intersection with the line of watershed of an unnamed tributary of the Big Salmon River that flows into the Big Salmon River at approximate latitude 61° 32' 30" N and approximate longitude 134° 08' 00" W;

1.38 Thence southerly along the line of watershed separating the steams flowing into the unnamed tributary of the Big Salmon River that flows into the Big Salmon River at approximate latitude 61° 32' 00" N and approximate longitude 133° 58' 00" W from the streams flowing into the Big Salmon River downstream of said unnamed tributary to a point at a height of land, of approximate elevation 1,610 metres, at approximate latitude 61° 33' 00" N and approximate longitude 134° 00' 00" W;

1.39 Thence southeasterly in a straight line to a point at the intersection of the west bank of said unnamed tributary with the north bank of the Big Salmon River;

1.40 Thence southerly in a straight line to a point at a height of land, of approximate elevation 1,490 metres, at approximate latitude 61° 30' 00" N and approximate longitude 133° 57' 00" W;

1.41 Thence southerly along the line of watershed separating the streams flowing into the unnamed tributary of the Big Salmon River that flows into the Big Salmon River at approximate latitude 61° 32' 00" N and approximate longitude 133° 55' 00" W from the streams flowing into

the Big Salmon River downstream of said unnamed tributary to a point at its intersection with the line of watershed of the South Big Salmon River;

1.42 Thence southerly along the line of watershed separating the streams flowing into the South Big Salmon River from the streams flowing into the Big Salmon River to a point at its intersection with the line of watershed of the Boswell River;

1.43 Thence westerly along the line of watershed separating the streams flowing into the South Big Salmon River from the streams flowing into the Boswell River and the Indian River to a point at its intersection with longitude 134° 00' 00" W;

1.44 Thence south along longitude 134° 00' 00" W to a point at its intersection with the line of watershed separating the streams flowing into the Indian River from the streams flowing into Bull Creek at approximate latitude 61° 07' 30" N;

1.45 Thence westerly along the line of watershed separating the streams flowing into the Teslin River downstream of the Boswell River from the streams flowing into Bull Creek to a point at its intersection with the eastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-59;

1.46 Thence southerly along the eastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-59 to a point at its intersection with the north bank of the Boswell River;

1.47 Thence southerly in a straight line to a point at the northeast corner of the parcel of Proposed Settlement Land identified as KDFN R-71;

1.48 Thence southerly along the eastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-71 to a point at the intersection of the southern boundary of said parcel of Proposed Settlement Land with the height of land between Baker Lake and the Teslin River at approximate latitude 61° 02' 00" N and approximate longitude 134° 09' 00" W;

1.49 Thence southeasterly along the height of land between Baker Lake and the Teslin River to a point at a height of land, of approximate elevation 1,035 metres, at approximate latitude 60° 59' 00" N and approximate longitude 134° 05' 00" W;

1.50 Thence southeasterly in a straight line to a point at a height of land, of approximate elevation 1,085 metres, at approximate latitude 60° 56' 00" N and approximate longitude 134° 01' 00" W;

1.51 Thence westerly in a straight line to a point at the northwest corner of the parcel of Settlement Land identified as TTC R-9A;

1.52 Thence southerly along the western boundary of the parcel of Settlement Land identified as TTC-9A to a point at the southern most corner of said parcel of Settlement Land;

1.53 Thence southwest along the line of extension of the southern boundary of the parcel of Settlement Land identified as TTC -9A to a point at its intersection with longitude 134° 00' 00" W;

1.54 Thence south along longitude 134° 00' 00" W to a point at its intersection with the south bank of Michie Creek;

1.55 Thence easterly along the south bank of Michie Creek to a point at its intersection with the north bank of an unnamed tributary at approximate latitude 60° 37' 00" N and approximate longitude 133° 59' 30" W;

1.56 Thence southerly along the line of watershed separating the streams flowing into said unnamed tributary of Michie Creek from the streams flowing into Michie Creek upstream of the unnamed tributary to a point at its intersection with the line of watershed of Goody Creek;

1.57 Thence southwesterly along the line of watershed separating the streams flowing into Goody Creek from the streams flowing into said unnamed tributary of Michie Creek to a point at its intersection with the line of watershed of Judas Creek;

1.58 Thence southwesterly along the line of watershed separating the streams flowing into Judas Creek from the streams flowing into the unnamed tributary of Marsh Lake that flows into Marsh Lake at approximate latitude 60° 27' 30" N and approximate longitude 134° 16' 00" W to a point at its intersection with the line of watershed of the unnamed tributary of said unnamed tributary of Marsh Lake that flows into said unnamed tributary of Marsh Lake at approximate latitude 60° 27' 00" N and approximate longitude 134° 08' 00" W;

1.59 Thence southwesterly along the line of watershed separating the streams flowing into the unnamed tributary of Marsh Lake that flows into Marsh Lake at approximate latitude 60° 27' 00" N and approximate longitude 134° 16' 00" W upstream of an unnamed tributary of the unnamed tributary of Marsh Lake that flows into the unnamed tributary of Marsh Lake at approximate latitude 60° 27' 00" N and approximate longitude 134° 08' 00" W from the streams flowing into an unnamed tributary of the unnamed tributary of Marsh Lake that flows into the unnamed tributary of Marsh Lake at approximate latitude 60° 27' 00" N and approximate longitude 134° 08' 00" W to a point at its intersection with the eastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-27;

1.60 Thence southerly along the eastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-27 to a point at the intersection of the western boundary of said parcel of Proposed Settlement Land with an extension of the southern boundary of the parcel of Proposed Settlement Land identified as KDFN R-9;

1.61 Thence southwesterly along the extension of the southern boundary of the parcel of Proposed Settlement Land identified as KDFN R-9 and southwesterly along the boundary of said parcel of Proposed Settlement Land to a point at its intersection with the eastern shore of Marsh Lake;

1.62 Thence northwesterly along the eastern shore of Marsh Lake to a point, at approximate latitude  $60^{\circ} 32' 30''$  N and approximate longitude  $134^{\circ} 28' 00''$  W, directly across from the intersection of the western shore of Marsh Lake with the southern boundary of the parcel of Proposed Settlement Land identified as KDFN R-7;

1.63 Thence southwesterly in a straight line to a point at the intersection of the western shore of March Lake with the southern boundary of the parcel of Proposed Settlement Land identified as KDFN R-7;

1.64 Thence westerly along the southern boundary of the parcel of Proposed Settlement Land identified as KDFN R-7 to the southwest corner of said parcel of Proposed Settlement Land;

1.65 Thence westerly in a straight line to a point at a height of land, of approximate elevation 1,305 metres, located at approximate latitude  $60^{\circ} 30' 30''$  N and approximate longitude  $134^{\circ} 41' 00''$  W;

1.66 Thence southwesterly to the northeast corner of the parcel of Proposed Settlement Land identified as CTFN R-30B;

1.67 Thence westerly along the northern boundary of said parcel of Proposed Settlement Land to a point at its intersection with the north bank of Bear Creek;

1.68 Thence westerly along the north bank of Bear Creek to a point at its intersection with the northeast bank of the Watson River;

1.69 Thence southerly along the northeast bank of the Watson River to a point at its intersection with an eastern extension of the southern boundary of the parcel of Proposed Settlement Land identified as KDFN R-25;

1.70 Thence westerly along the southern boundary of said parcel of Proposed Settlement Land and its eastern extension to a point at its intersection with the eastern limit of the Annie Lake Road right of way;

1.71 Thence northerly along the eastern limit of the Annie Lake Road right of way to a point at its intersection with the south bank of the Watson River;

1.72 Thence westerly along the south bank of the Watson River to a point at its intersection with the eastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-30;

1.73 Thence southerly along the eastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-30 to a point at its intersection with a northerly extension of the northeastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-31;

1.74 Thence southeasterly along the northeastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-31, including its northerly extension, to a point being the northwest corner of the parcel of Proposed Settlement Land identified as KDFN R-31;

1.75 Thence northwesterly in a straight line to the highest point of Alligator Mountain;

1.76 Thence northerly in a straight line to a point at a height of land, of approximate elevation 1,550 metres, located at approximate latitude  $60^{\circ} 27' 30''$  N and approximate longitude  $135^{\circ} 17' 00''$  W;

1.77 Thence westerly in a straight line to a point at a height of land, of approximate elevation 1,700 metres, located at approximate latitude  $60^{\circ} 29' 00''$  N and approximate longitude  $135^{\circ} 58' 00''$  W;

1.78 Thence westerly in a straight line to a point at the intersection of the east shore of Kusawa Lake with latitude  $60^{\circ} 30' 00''$  N;

1.79 Thence southerly along the east shore of Kusawa Lake to a point at its intersection with the east bank of Kusawa River;

1.80 Thence southerly along the east bank of the Kusawa River to a point at its intersection with the east bank of the Hendon River;

1.81 Thence southerly along the east bank of the Hendon River to a point at its intersection with the Yukon - British Columbia boundary;

1.82 Thence easterly along the Yukon - British Columbia boundary to the point of commencement.

## **2.0 Southeast Yukon**

2.1 In Yukon, all that land contained within the area more particularly described as follows:

2.2 Commencing at a point on the Yukon - British Columbia boundary at its intersection with the east bank of Carlick Creek;

2.3 Thence northerly along the South Central Yukon assessment district boundary to a point on the line of watershed of Teraktu Creek at a height of land, of approximate elevation 1,855 metres, at approximate latitude  $61^{\circ} 41' 00''$  N and approximate longitude  $134^{\circ} 00' 00''$  W;

2.4 Thence northerly along the line of watershed separating the streams flowing into the North Big Salmon River from the streams flowing into Teraktu Creek to a point at a height of land, of approximate elevation 1,945 metres, at approximate latitude  $61^{\circ} 42' 00''$  N and approximate longitude  $134^{\circ} 01' 00''$  W;

2.5 Thence northerly along the line of watershed separating the streams flowing into Northern Creek from the streams flowing into the North Big Salmon River downstream of Northern Creek to a point at a height of land, of approximate elevation 1,765 metres, at approximate latitude  $61^{\circ} 48' 30''$  N and approximate longitude  $134^{\circ} 00' 30''$  W;

2.6 Thence northerly in a straight line to a point at the intersection of the west bank of Northern Creek with the south bank of the North Big Salmon River;

2.7 Thence northerly in a straight line to a point at a height of land, of approximate elevation 1,975 metres, at approximate latitude  $61^{\circ} 53' 00''$  N and approximate longitude  $133^{\circ} 53' 00''$  W;

2.8 Thence northerly along the line of watershed separating the streams flowing into Thomas Creek from the streams flowing into Solitary Creek to a point at its intersection with the line of watershed of the Magundy River at approximate latitude  $61^{\circ} 58' 30''$  N and approximate longitude  $133^{\circ} 57' 00''$  W;

2.9 Thence northerly along the line of watershed separating the streams flowing into an unnamed tributary of the Magundy River that flows into the Magundy River at approximate latitude  $62^{\circ} 10' 00''$  N and approximate longitude  $134^{\circ} 7' 30''$  W from the streams flowing into Solitary Creek to a point at its intersection with the line of watershed of Lokken Creek at approximate latitude  $62^{\circ} 04' 00''$  N and approximate longitude  $134^{\circ} 06' 00''$  W;

2.10 Thence northeasterly along the line of watershed separating the streams flowing into said unnamed tributary of the Magundy River from the streams flowing into Lokken Creek to a point at its intersection with the line of watershed of the streams that flow into the Magundy River downstream of said unnamed tributary of the Magundy River at approximate latitude  $62^{\circ} 05' 30''$  N and approximate longitude  $134^{\circ} 08' 00''$  W;

2.11 Thence northerly along the line of watershed separating the streams flowing into said unnamed tributary of the Magundy River from the streams that flow into the Magundy River downstream of said unnamed tributary of the Magundy River to a point at a height of land, of

approximate elevation 1,550 metres, at approximate latitude 62° 06' 30" N and approximate longitude 134° 09' 00" W;

2.12 Thence northerly in a straight line to the southern most corner of the parcel of Settlement Land identified as LSC R-56B at approximate latitude 62° 10' 30" N and approximate longitude 134° 08' 00" W;

2.13 Thence easterly along the southern boundary of said parcel of Settlement Land to a point at the intersection of the northwestern boundary of said parcel of Settlement Land with the north bank of Drury Creek;

2.14 Thence northwesterly along the north bank of Drury Creek and the north shore of Drury Lake to the southern corner of the parcel of Settlement Land identified as LSC R-5B;

2.15 Thence northerly along the southeastern boundary of said parcel of Settlement Land to a point at the intersection of the northeastern boundary of said parcel of Settlement Land with the line of watershed separating a tributary of Drury Lake that flows into Drury Lake at approximate latitude 62° 20' 30" N and approximate longitude 134° 41' 00" W from a tributary of Drury Lake, that flows into Drury Lake at approximate latitude 62° 21' 00" N and approximate longitude 134° 44' 00" W;

2.16 Thence northwesterly along said line of watershed to a point at its intersection with the line of watershed of Jar Creek;

2.17 Thence northerly along the line of watershed separating the streams flowing into Jar Creek from the streams flowing into Lyon Creek to a point at its intersection with the line of watershed of Pass Creek;

2.18 Thence northerly along the line of watershed separating the streams flowing into Pass Creek from the streams flowing into Lyon Creek to a point at its intersection with the line of watershed of Little Sheep Creek;

2.19 Thence northerly along the line of watershed separating the streams flowing into Little Sheep Creek from the streams flowing into Pass Creek to a point at its intersection with the line of watershed of Hodder Creek;

2.20 Thence northerly in a straight line to the highest point of Hodder Creek;

2.21 Thence northeasterly along the west bank of Hodder Creek to a point at its intersection with the south bank of the Pelly River;

2.22 Thence northerly in a straight line to a point at the intersection of the west bank of the Tay River and the north bank of the Pelly River;

2.23 Thence northwesterly along the north bank of the Pelly River to a point at its intersection with the south bank of the Earn River;

2.24 Thence easterly along the south bank of the Earn River to a point at its intersection with the western boundary of the parcel of Settlement Land identified as SFN R-39B;

2.25 Thence southerly along the western boundary of said parcel of Settlement Land to the southern corner of the parcel of Settlement Land identified as SFN R-26A;

2.26 Thence northeasterly along the southern boundary of said parcel of Settlement Land and the eastern extension of the southern boundary of said parcel of Settlement Land to a point at its intersection with the southern shore of Earn Lake;

2.27 Thence easterly along the southern shore of Earn Lake and the south bank of the Earn River, including the south shore of Stokes Lake, to a point at its intersection with the south shore of an unnamed lake at approximate latitude  $62^{\circ} 56' 30''$  N and approximate longitude  $133^{\circ} 16' 00''$  W;

2.28 Thence northeasterly in a straight line to a point at the intersection of the west bank of an unnamed tributary of the South Macmillan River with the north bank of the South Macmillan River at approximate latitude  $62^{\circ} 59' 00''$  N and approximate longitude  $133^{\circ} 07' 30''$  W;

2.29 Thence northwesterly along the north bank of the South Macmillan River to a point at its intersection with the south bank of the North Macmillan River;

2.30 Thence easterly along the south bank of the North Macmillan River to a point directly across from the intersection of the east bank of Barr Creek with the north bank of the North Macmillan River;

2.31 Thence northeasterly in a straight line to a point at a height of land, of approximate elevation 1,240 metres, at approximate latitude  $63^{\circ} 06' 00''$  N and approximate longitude  $132^{\circ} 43' 00''$  W;

2.32 Thence northerly in a straight line to a point at a height of land, of approximate elevation 1,620 metres, at approximate latitude  $63^{\circ} 14' 30''$  N and approximate longitude  $132^{\circ} 45' 30''$  W;

2.33 Thence northerly in a straight line to a point at the intersection of the south bank of the Hess River with the west bank of an unnamed tributary of the Hess River at approximate latitude  $63^{\circ} 18' 30''$  N and approximate longitude  $132^{\circ} 47' 30''$  W;

2.34 Thence easterly along the south bank of the Hess River to a point at its intersection with the north bank of an unnamed tributary at approximate latitude  $63^{\circ} 37' 30''$  N and approximate longitude  $130^{\circ} 25' 30''$  W;

2.35 Thence easterly along the north bank of said unnamed tributary of the Hess River to a point at its intersection with the west bank of an unnamed tributary at approximate latitude  $63^{\circ} 38' 00''$  N and approximate longitude  $130^{\circ} 16' 30''$  W;

2.36 Thence northerly in a straight line to a point at a height of land on the Yukon - Northwest Territory boundary, of approximate elevation 1,610 metres, at approximate latitude  $63^{\circ} 39' 00''$  N and approximate longitude  $130^{\circ} 17' 00''$  W;

2.37 Thence southerly along the Yukon - Northwest Territory boundary to a point at its intersection with the British Columbia boundary;

2.38 Thence westerly along the Yukon - British Columbia boundary to the point of commencement.

### **3.0 North Yukon**

3.1 In Yukon, all that land contained within the area more particularly described as follows:

3.2 Commencing at a point on the Yukon - Alaska boundary at its intersection with the south bank of the Ladue River;

3.3 Thence northerly along the Yukon - Alaska boundary to the northern limit of the Yukon as described in schedule 1 of the *Yukon Act* c. 7 - 2002;

3.4 Thence easterly along the northern limit of the Yukon, and including the islands as described in schedule 1 of the *Yukon Act* c. 7 - 2002, to the extension north from McDougall Pass being the Yukon - Northwest Territory boundary;

3.5 Thence southerly along the Yukon - Northwest Territory boundary to its intersection with latitude 65° 30' 00" N;

3.6 Thence westerly along latitude 65° 30' 00" N to its intersection with the east bank of the Hart River;

3.7 Thence southerly along the east bank of the Hart River to a point directly across from the intersection of the east bank of Rae Creek and the west bank of the Hart River;

3.8 Thence southerly in a straight line across the Hart River to said point of intersection;

3.9 Thence southerly along the east bank of Rae Creek to a point directly across from the intersection of the west bank of Rae Creek with the east bank of an unnamed tributary which flows northerly from Davidson Pass;

3.10 Thence southerly along the east bank of said unnamed tributary to a point, in Davidson Pass, at its intersection with the line of watershed separating the streams flowing into Rae Creek from those flowing into the Klondike River;

3.11 Thence southerly along the line of watershed separating the streams flowing into Rae Creek from those flowing into the Klondike River to a point at its intersection with the line of watershed of the McQuesten River;

3.12 Thence southerly along the line of watershed separating the streams flowing into the Klondike River from those flowing into the McQuesten River to a point at its intersection with the line of watershed of Clear Creek;

3.13 Thence southerly along the line of watershed separating the streams flowing into the McQuesten River from those flowing into Clear Creek to a point at its intersection with the line of watershed of Partridge Creek;

3.14 Thence southwesterly along the watershed separating the streams flowing into Partridge Creek from the streams flowing into the McQuesten River to the point of intersection of latitude 63° 37' 00" N with longitude 137° 18' 00" W;

3.15 Thence westerly along latitude 63° 37' 00" N to its intersection with the west bank of Partridge Creek;

3.16 Thence southwesterly along the west bank of Partridge Creek to its intersection with the northern limit of the Klondike Highway right of way;

3.17 Thence northwesterly along the northern limit of the Klondike Highway right of way to a point at the intersection of an extension of the northwestern boundary of the parcel of Settlement Land identified as NND R-23B with the northern limit of the Klondike Highway right of way;

3.18 Thence southwesterly along the extension of the northwestern boundary of the parcel of Settlement Land identified as NND R-23B to the northern most corner of said parcel of Settlement Land;

3.19 Thence southwesterly along the northeastern boundary of the parcel of Settlement Land identified as NND R-23B to the intersection of the southwestern boundary of said parcel of Settlement Land with the north bank of the Stewart River;

3.20 Thence southwesterly along the north bank of the Stewart River to a point directly across from the intersection of the south bank of the Stewart River with the west bank of an unnamed tributary of the Stewart River that flows north into the Stewart River between Telford Creek and Barker Creek;

3.21 Thence southerly in a straight line to said point;

3.22 Thence southerly along the west bank of the unnamed tributary of the Stewart River to a point at its intersection with the line of watershed separating the streams flowing into Telford Creek from the streams flowing into Barker Creek;

3.23 Thence southerly along the line of watershed separating the streams flowing into Telford Creek from the streams flowing into Barker Creek to a point at its intersection with the line of watershed of Thistle Creek;

3.24 Thence southerly along the line of watershed separating the streams flowing into Barker Creek from the streams flowing into Thistle Creek to a point at its intersection with the line of watershed of Ballarat Creek;

3.25 Thence southeasterly along the line of watershed separating the streams flowing into Ballarat Creek from the streams flowing into Barker Creek to a point at its intersection with the line of watershed of Pedlar Creek;

3.26 Thence southerly along the line of watershed separating the streams flowing into Ballarat Creek from the streams flowing into Pedlar Creek to a point at a height of land, of approximate

elevation 1,185 metres, at approximate latitude  $62^{\circ} 56' 30''$  N and approximate longitude  $138^{\circ} 50' 00''$  W;

3.27 Thence southerly in a straight line to the highest point of an unnamed tributary of the Yukon River that flows into the Yukon River at approximate latitude  $62^{\circ} 53' 45''$  N and approximate longitude  $138^{\circ} 53' 00''$  W;

3.28 Thence southerly along the west bank of said unnamed tributary of the Yukon River to a point at its intersection with the north bank of the Yukon River;

3.29 Thence northwesterly along the north bank of the Yukon River to a point directly across from the intersection of west bank of the Yukon River with the south bank of the White River;

3.30 Thence westerly in a straight line to said point;

3.31 Thence westerly along the south bank of the White River to a point directly across from the intersection of the west bank of the White River with the south bank of the Ladue River;

3.32 Thence westerly in a straight line to said point;

3.33 Thence westerly along the south bank of the Ladue River to the point of commencement.

#### **4.0 Southwest Yukon**

4.1 In Yukon, all that land contained within the area more particularly described as follows:

4.2 Commencing at a point on the Yukon - British Columbia boundary at its intersection with the east bank of the Hendon River;

4.3 Thence westerly along the Yukon - British Columbia boundary to a point at its intersection with the boundary of Alaska;

4.4 Thence northerly along the Yukon - Alaska boundary to a point at its intersection with the south bank of the Ladue River;

4.5 Thence easterly along the boundary of the North Yukon assessment district to a point at the intersection of the north bank of the Yukon River with the east bank of Ballarat Creek;

4.6 Thence southerly in a straight line to a point on the south bank of the Yukon River directly across from the intersection of the north bank of the Yukon River and the east bank of Ballarat Creek;

4.7 Thence southerly in a straight line to a point at a height of land, of approximate elevation of 910 metres, at approximate latitude  $62^{\circ} 53' 00''$  N and approximate longitude  $138^{\circ} 59' 30''$  W;

4.8 Thence southerly along the line of watershed separating the streams flowing into Excelsior Creek from the streams flowing into the Yukon River downstream of Excelsior Creek to a point at its intersection with the line of watershed of Canadian Creek;

4.9 Thence southerly along the line of watershed separating the streams flowing into Coffee Creek from the streams flowing into Canadian Creek to a point at its intersection with the line of watershed of Dip Creek;

4.10 Thence southerly along the line of watershed separating the streams flowing into Dip Creek from the streams flowing into Coffee Creek to a point at its intersection with longitude  $139^{\circ} 00' 00''$  W;

4.11 Thence southerly along longitude  $139^{\circ} 00' 00''$  W to a point at its intersection with the line of watershed separating the streams flowing into the Klotassin River from the streams flowing into the Nisling River at approximate latitude  $62^{\circ} 26' 00''$  N;

4.12 Thence easterly along the line of watershed separating the streams flowing into the Klotassin River from the streams flowing into the Nisling River to a point at its intersection with the line of watershed of an unnamed tributary of the Nisling River that flows into the Nisling River at approximate latitude  $62^{\circ} 10' 00''$  N and approximate longitude  $138^{\circ} 40' 00''$  W;

4.13 Thence southerly along the line of watershed separating the streams flowing into said unnamed tributary of the Nisling River from the streams flowing into the Nisling River downstream of said unnamed tributary to a point at the intersection of the west bank of said unnamed tributary with the north bank of the Nisling River;

4.14 Thence easterly along the line of watershed separating the streams flowing into said unnamed tributary of the Nisling River from the streams flowing into the Nisling River upstream of said unnamed tributary to a point at its intersection with the line of watershed of the Klaza River;

4.15 Thence easterly along the line of watershed separating the streams flowing into said unnamed tributary of the Nisling River from the streams flowing into the Klaza River to a point at its intersection with the line of watershed of the Klotassin River;

4.16 Thence easterly along the line of watershed separating the streams flowing into the Klaza River from the streams flowing into the Klotassin River to a point at its intersection with the line of watershed of Big Creek;

4.17 Thence easterly along the line of watershed separating the streams flowing into the Klaza River from the streams flowing into Big Creek to a point at its intersection with longitude 138° 00' 00" W at approximate latitude 62° 16' 00" N;

4.18 Thence southerly along longitude 138° 00' 00" W to a point at its intersection with the line of watershed separating the streams flowing into the Nisling River from the streams flowing into the Klaza River;

4.19 Thence easterly along the line of watershed separating the streams flowing into the Klaza River from the streams flowing into the Nisling River to a point at a height of land, of approximate elevation 1,305 metres, at approximate latitude 62° 06' 30" N and approximate longitude 137° 33' 00" W;

4.20 Thence easterly in a straight line to the intersection of the west bank of Lonely Creek with the south shore of an unnamed lake at approximate latitude 62° 06' 30" N and approximate longitude and 137° 31' 30" W;

4.21 Thence southerly along the west bank of Lonely Creek to a point at its intersection with the northern boundary of the parcel of Settlement Land identified as LSC R-30A;

4.22 Thence southwesterly along the boundary of said parcel of Settlement Land to the southeast corner of said parcel of Settlement Land;

4.23 Thence easterly in a straight line to the southwest corner of the parcel of Settlement Land identified as LSC R-65B;

4.24 Thence easterly along the boundary of the parcel of Settlement Land identified as

LSC R-65B to the southeast corner of said parcel of Settlement Land;

4.25 Thence southeasterly in a straight line to a point at a height of land, of approximate elevation 1,055 metres, at approximate latitude  $61^{\circ} 56' 00''$  N and approximate longitude and  $137^{\circ} 15' 30''$  W;

4.26 Thence southeasterly along the line of watershed separating the streams flowing into Mackintosh Creek from the streams flowing into the Nisling River downstream of Mackintosh Creek to a point at a height of land, of approximate elevation of 1,215 metres, at approximate latitude  $61^{\circ} 52' 30''$  N and approximate longitude and  $137^{\circ} 11' 00''$  W;

4.27 Thence southeasterly in a straight line to a point at a height of land, of approximate elevation of 1,185 metres, at approximate latitude  $61^{\circ} 52' 00''$  N and approximate longitude and  $137^{\circ} 05' 00''$  W;

4.28 Thence southeasterly along the line of watershed separating the streams flowing into the unnamed tributary of Mackintosh Creek that flows into Mackintosh Creek at approximate latitude  $61^{\circ} 54' 30''$  N and approximate longitude and  $137^{\circ} 07' 00''$  W from the streams flowing into Mackintosh Creek upstream of said unnamed tributary to a point at its intersection with the line of watershed of Incised Creek at approximate latitude  $61^{\circ} 49' 00''$  N and approximate longitude and  $136^{\circ} 47' 00''$  W;

4.29 Thence southeasterly along the line of watershed separating the streams flowing into Incised Creek from the streams flowing into Mackintosh Creek to a point at its intersection with the line of watershed of Lake Terrace Creek at approximate latitude  $61^{\circ} 36' 30''$  N and approximate longitude and  $136^{\circ} 50' 00''$  W;

4.30 Thence southeasterly along the line of watershed separating the streams flowing into Lake Terrace Creek from the streams flowing into Mackintosh Creek to a point at its intersection with the line of watershed of Tlansanlin Creek at approximate latitude  $61^{\circ} 32' 30''$  N and approximate longitude and  $136^{\circ} 56' 00''$  W;

4.31 Thence southeasterly along the line of watershed separating the streams flowing into Lake Terrace Creek from the streams flowing into Tlansanlin Creek to a point at its intersection with the line of watershed of Tsusho Creek at approximate latitude  $61^{\circ} 31' 00''$  N and approximate longitude and  $136^{\circ} 54' 00''$  W;

4.32 Thence southeasterly along the line of watershed separating the streams flowing into Lake Terrace Creek from the streams flowing into Tsusho Creek to its intersection with latitude  $61^{\circ} 30' 00''$  N;

4.33 Thence easterly along latitude  $61^{\circ} 30' 00''$  N to a point at its intersection with the western boundary of the parcel of Settlement Land identified as CAFN R-41A;

4.34 Thence northeasterly along the western boundary of said parcel of Settlement Land to its northeast corner;

4.35 Thence easterly in a straight line to the northwest corner of the parcel of Settlement Land identified as CAFN R-11A;

4.36 Thence easterly along the boundary of said parcel of Settlement Land to a point at the intersection of the eastern boundary of said parcel of Settlement Land with latitude 61° 30' 00" N;

4.37 Thence easterly along latitude 61° 30' 00" N to a point at its intersection with the western boundary of the parcel of Settlement Land identified as LSC R-18B;

4.38 Thence southerly along the boundary of said parcel of Settlement Land to the southeast corner of said parcel of Settlement Land;

4.39 Thence east in a straight line to the southwest corner of the parcel of Settlement Land identified as LSC R-48B;

4.40 Thence easterly along the boundary of said parcel of Settlement Land to a point at its intersection with the east bank of Klusha Creek;

4.41 Thence southerly along the east bank of Klusha Creek to a point at its intersection with the northern boundary of the parcel of Settlement Land identified as CAFN R-9B;

4.42 Thence easterly along the boundary of said parcel of Settlement Land to its southwest corner;

4.43 Thence westerly in a straight line to the southeast corner of the parcel of Settlement Land identified as CAFN R-46B;

4.44 Thence westerly along the southern boundary of said parcel of Settlement Land to the northwest corner of the parcel of Settlement Land identified as TKC R-10B;

4.45 Thence southerly along the western boundary of said parcel of Settlement Land to its southern most corner;

4.46 Thence southeasterly in a straight line to the western most corner of the parcel of Settlement Land identified as TKC R-4B;

4.47 Thence southeasterly along the western boundary of said parcel of Settlement Land to a point at its intersection with the north bank of the Takhini River;

4.48 Thence southwesterly along the north bank of the Takhini River to a point at its intersection with the north bank of the Mendenhall River;

4.49 Thence westerly along the north bank of the Mendenhall River to a point at its intersection with the eastern boundary of the parcel of Proposed Settlement Land identified as KDFN R-80;

4.50 Thence westerly along the northern boundary of said parcel of Proposed Settlement Land to a point at the intersection of the southern boundary of said parcel of Proposed Settlement Land with the western limit of the Kusawa Lake Road right of way;

4.51 Thence easterly in a straight line to the southwest corner of the parcel of Proposed Settlement Land identified as KDFN R-62;

4.52 Thence easterly along the southern boundary of said parcel of Proposed Settlement Land to a point at its intersection with the west bank of the Takhini River;

4.53 Thence easterly across the Takhini River along the extension of the southern boundary of the parcel of Proposed Settlement Land identified as KDFN R-62 to a point at its intersection with the east bank of the Takhini River;

4.54 Thence southerly along the east bank of the Takhini River to a point at its intersection with the east shore of Kusawa Lake;

4.55 Thence southerly along the east shore of Kusawa Lake to a point at its intersection with latitude 60° 30' 00" N;

4.56 Thence southerly along the boundary of the South Central Yukon assessment district to the point of commencement.

## **5.0 Whitehorse**

5.1 In Yukon, all that land contained within the area more particularly described as follows:

5.2 Commencing at a point at the intersection of the southern boundary of the parcel of Settlement Land identified as LSC R-48B with the east bank of Klusha Creek;

5.3 Thence easterly along the southern boundary of the parcel of Settlement Land identified as LSC R-48B to a point at the intersection of the eastern boundary of said parcel of Settlement Land with the southern shore of Braeburn Lake;

5.4 Thence northerly along the eastern shore of Braeburn Lake to a point at its intersection with the south bank of an unnamed tributary that flows into Braeburn Lake at approximate latitude  $61^{\circ} 28' 00''$  N and approximate longitude  $135^{\circ} 47' 30''$  W;

5.5 Thence easterly along the south bank of said unnamed tributary of Braeburn Lake to a point at its intersection with the western boundary of the parcel of land identified as Lot 1025 (CLSR 77847, LTO 95-102)(Braeburn airfield);

5.6 Thence southerly along the boundary of said parcel of land to a point at the intersection of the eastern boundary of said parcel of land with the south bank of said unnamed tributary of Braeburn Lake;

5.7 Thence easterly along the south bank of said unnamed tributary of Braeburn Lake to a point at its intersection with the northwest boundary of the parcel of land identified as Lot 1059 (CLSR 83099, LTO 99-0226);

5.8 Thence northeasterly along the northern boundary of the parcels of land identified as Lot 1059 (CLSR 83099, LTO 99-0226), Lot 1019 (CLSR 72719, LTO 90-34), Lot 1023 (CLSR 74122, LTO 92-24) and Lot 1062 (CLSR 85628, LTO 2002-0002) to a point at its intersection with the north bank of said unnamed tributary of Braeburn Lake, at approximate latitude  $61^{\circ} 30' 00''$  N and approximate longitude  $135^{\circ} 42' 30''$  W;

5.9 Thence northeasterly along the north bank of said unnamed tributary of Braeburn Lake to a point at its intersection with the south shore of an unnamed lake at approximate latitude  $61^{\circ} 31' 00''$  N and approximate longitude  $135^{\circ} 42' 00''$  W;

5.10 Thence easterly in a straight line to a height of land, of approximate elevation 940 metres, at approximate latitude  $61^{\circ} 34' 30''$  N and approximate longitude  $135^{\circ} 34' 00''$  W;

5.11 Thence northeasterly along the line of watershed separating the streams flowing into Frank Creek from the streams flowing into Mandanna Creek to a point at its intersection with the line of watershed of Chain Lakes;

5.12 Thence easterly along the line of watershed separating the streams flowing into Frank Creek from the streams flowing into Chain Lakes to a point at its intersection with southwestern boundary of the parcel of Settlement Land identified as LSC R-1A;

5.13 Thence southeasterly along the southwestern boundary of said parcel of Settlement Land to a point at the intersection of the eastern boundary of said parcel of Settlement Land with the southern shore of Claire Lake;

5.14 Thence northeasterly along the southeast shore of Claire Lake to a point at its intersection with the south bank of an unnamed tributary of Claire Lake that flows into Claire Lake at approximate latitude  $61^{\circ} 46' 00''$  N and approximate longitude  $135^{\circ} 15' 00''$  W;

5.15 Thence easterly in a straight line to a point at a height of land, of approximate elevation 1,430 metres, at approximate latitude  $61^{\circ} 47' 00''$  N and approximate longitude  $134^{\circ} 48' 00''$  W;

5.16 Thence southeast in a straight line to the southwest corner of the parcel of Settlement Land identified as LSC R-36B;

5.17 Thence easterly along the southern boundary of said parcel of Settlement Land to a point at its intersection with the west bank of the Big Salmon River;

5.18 Thence easterly along the west bank of the Big Salmon River to a point directly across from the intersection of the south bank of the North Big Salmon River with the east bank of the Big Salmon River;

5.19 Thence northeasterly in a straight line to said point;

5.20 Thence southeasterly along the east bank of the Big Salmon River to a point at its intersection with the southern most corner of the parcel of Settlement Land identified as LSC R-27B;

5.21 Thence easterly along the southern boundary of said parcel of Settlement Land to a point at the intersection of the eastern boundary of said parcel of Settlement Land with the line of watershed separating the streams flowing into the North Big Salmon River from the streams flowing into the Big Salmon River at approximate latitude  $61^{\circ} 43' 30''$  N and approximate longitude  $134^{\circ} 29' 00''$  W;

5.22 Thence easterly along the line of watershed separating the streams flowing into the North Big Salmon River from the streams flowing into the Big Salmon River to a point at a height of land, of approximate elevation 1,945 metres, at approximate latitude  $61^{\circ} 42' 00''$  N and approximate longitude  $134^{\circ} 01' 00''$  W;

5.23 Thence southeasterly along the boundary of the Southeast Yukon assessment district to a point at a height of land, of approximate elevation 1,855 metres, located at approximate latitude  $61^{\circ} 41' 00''$  N and approximate longitude  $134^{\circ} 00' 00''$  W;

5.24 Thence southerly along the boundary of the South Central Yukon assessment district to a point at the intersection of the east shore of Kusawa Lake with latitude  $60^{\circ} 30' 00''$  N;

5.25 Thence northerly along the boundary of the Southwest Yukon assessment district to the point of commencement.

## **6.0 Central Yukon**

6.1 In Yukon, all that land contained within the area more particularly described as follows:

6.2 Commencing at a point on the Yukon - Northwest Territory boundary at its intersection with latitude  $65^{\circ} 30' 00''$  N;

6.3 Thence westerly along the boundary of the North Yukon assessment district to a point at the intersection of the north bank of the Yukon River with the east bank of Ballarat Creek;

6.4 Thence southerly along the boundary of the Southwest Yukon assessment district to a point at the intersection of the southern boundary of the parcel of Settlement Land identified as LSC R-48B with the east bank of Klusha Creek;

6.5 Thence northeasterly along the boundary of the Whitehorse assessment district to a point at a height of land on the line of watershed of Teraktu Creek, of approximate elevation 1,945 metres, at approximate latitude  $61^{\circ} 42' 00''$  N and approximate longitude  $134^{\circ} 01' 00''$  W;

6.6 Thence northeasterly along the boundary of the Southeast Yukon assessment district to a point at a height of land on the Yukon - Northwest Territory boundary, of approximate elevation 1,610 metres, at approximate latitude  $63^{\circ} 40' 00''$  N and approximate longitude  $130^{\circ} 13' 00''$  W;

6.7 Thence northerly along the Yukon - Northwest Territory boundary to the point of commencement.
