

## **Call for Interest Contract/Casual Opportunities**

The Yukon Environmental and Socio-economic Assessment Board (YESAB) and six Designated Offices will be conducting environmental and socio-economic assessments under the Yukon Environmental and Socio-economic Assessment Act (YESAA). It is anticipated that specific technical resources may be needed, from time to time, to fulfill our operational requirements. YESAB intends to create a source list of pre-qualified suppliers for a variety of technical expertise and support.

Are you interested in being included on our source list for casual or contract work? YESAB is looking for individuals with specialized experience (scientific, traditional or local knowledge) to provide technical support in the conducting of assessments in the following areas:

Mining Activities	Soils and Surficial Geology
Industrial Activities	Hydrology and Water Quality (surface, ground)
Agriculture	Terrestrial Ecology (vegetation, wildlife, birds)
Forestry Activities	Aquatic Ecology (fish, benthos, periphyton)
Petroleum Industry Activities	Local Social and Economic Conditions
Energy and Telecommunications	Contaminants and Waste
Transportation and Access	Emergency Planning and Response
National Parks and Historic Sites	Air Emissions

If you would like to be considered for our source list, please send us your resume or your business information, a short description of the services you can provide and a rate sheet for those services.
